**NON-MEDICATION CONSENT FORM**  
Child Day Care Programs

- This form may be used when a parent consents to having over-the-counter products administered to their child in a child day care program. These products include, but are not limited to: topical ointments, lotions and creams, sprays, sunscreen products and topically applied insect repellent.
- This form should NOT be used to meet the consent requirements for the administration of the following: prescription medications, oral over-the-counter medications, medicated patches, and eye, ear, or nasal drops or sprays. OCFS Form 7002 would meet the consent requirements for medications.
- One form must be completed for each over-the-counter product. Multiple products cannot be listed on one form.
- This form must be completed in a language in which the staff is literate.
- If parent's instructions differ from the instructions on the product's packaging, permission must be received from a health care provider or licensed authorized prescriber.

Per NYS law, a blood lead test is required at 1 and 2 years of age and whenever risk of lead poisoning is likely. If the child has not been tested for lead, the day care provider may not exclude the child from child day care, but must give the parent information on lead poisoning and prevention, and refer the parent to their health care provider or the county health department for a lead blood screening test.
